Requirements & Availability

Your nbn® Broadband service comes with the following line speeds which is capable of the following download and upload speeds;

- 25/10 Mbps
- 100/20 Mbps
- 100/40 Mbps

The availability of these line speeds is dependent on which type of nbn® technology is available at your provided premise's address. These services are available anywhere where nbn® has been rolled out - for more details please you can visit <https://www.nbnco.com.au/learn/rollout-map>

Fibre to the Curb (FTTC) speeds can only be confirmed once the service has been completely provisioned and activated, as they depend on physical infrastructure that is specific to your premises.

The download and upload speeds stated are the maximum that each type of nbn® can deliver and will rarely be achieved by any user for a variety of reasons such as (e.g. how many concurrent users are active, your in-home set-up, including end user equipment and wiring). Infinite Networks makes no guarantee on the actual speeds that will be delivered as we rely on the infrastructure provider to ensure that the service is provisioned to deliver the most optimum speeds at all times.

Connection Types:

1. For Houses (Single Dwellings):
 - FTTC technology, your service connects to the Ethernet LAN port of the NBN connection box
 - (NCD) provided by nbn.
2. For Apartments or Shared Buildings (Multi-Dwelling Units):
3. If using FTTC technology, your service connects to the Ethernet LAN port of the NBN connection box
 - a. (NCD) provided by nbn.

Equipment:

- For FTTC services, you will need a router to share the connection with multiple devices, which can be purchased from Infinite Networks.

Additional Fees & Charges

At times there may be a need to charge additional fees that Infinite Networks may need to charge you.

- **Incorrect Call Out Fee:** If a customer incorrectly requests Infinite Networks to arrange for a technician to visit premises, or remotely diagnose a service, where no fault or issue is found or the issue found is beyond the network boundary point (such as private equipment).
- **Fibre on Demand Disconnect Fee:** If a customer leaves Infinite Networks within 12 months of upgrading for free to the nbn® Fibre to the Premises network there may be a \$200 charge added to your final invoice.

Additional Fees and Charges

The following charges may be charged to you for the following reasons:

Description	Charge
New Development Charge may be charged to you if your premises is newly developed. This is not an installation charge but an activation charge that will apply to the first service connected to that premises.	\$300.00
Subsequent Installation fee may be charged to you for FTTB, FTTN and FTTC when not migrating from an existing PSTN and or an existing nbn® service present at the same address.	\$297.00
